

TMA DC Stop ---

DC Stop – 800MHz-2170MHz

DC Stop is used in dual band or multi band systems. It will prevent DC from TMA to the Non-DC injection ANT system.

Item	Technical Data
Frequency range	800-2170MHz
Input Power	750W
Insertion loss	=0.15dB
Return loss	=22dB
Isolation	70 dB (DC)
Connectors	DIN 7/16
Impedance	50 Ω
Intermodulation products	< -160 dBc (3rd order; with 2 x 20 W)
Size(including connector)	98.5× 47× 36mm
Lightning protection	IEC-1312-1
Electromagnetic compatibility	ETS300 342-3
MTBF	=1000000Hour
Application	Outdoor
